USE OF FORM 0-73

1. Only incoming teletype messages which require transmission relay may be prepared for transmission using form 0-73. Use of form 0-73 is restricted to incoming teletype messages received within the last 3 days which require transmission relay; all other teletype messages must be prepared using form 0-93.
2. Additions such as notes and administrative data for a specific addressee are not allowed. If a note or administrative data is required for a particular addressee a separate 0-73 form must be prepared.
3. The message will be transmitted just as it appears. The person approving the message is solely responsible for assuring all necessary editing changes have been made.

PREPARATION OF FORM WHICH CONSISTS OF A PREPRINTED YELLOW.

1. Complete appropriate boxes: date, classification & precedence.
2. List addresses immediately following the "TO" or place a check mark in the appropriate boxes.
3. Type or PRINT the subject in the space provided.
4. Print or type originator's name, room number and telephone extension.
5. Indicate approval for transmission by initialing the "Approved By" box.

PREPARATION OF MESSAGE TO BE TRANSMITTED

1. Xerox 1 copy of incoming teletype message. A notation shall be made on the original incoming teletype "1 copy made for relay to SACS _____, (OR LEGATS) _____, (OR GOVERNMENT AGENCIES) _____."
2. Minor editing changes shall be made on the xerox as follows: using a lead pencil ~~ONLY draw single line through~~ the first and last lines of the heading and connect these lines from top right to bottom left forming a "Z," figure. (DO NOT OBLITERATE THE HEADING.) Use horizontal lines to delete sentences or words. Printed changes of a word or two to the text of the message may be made; however, changes to the existing text involving more than a word or two necessitate the originator to initiate a new message using form 0-93.
3. Administrative data or notes may be typed immediately following the text and will be transmitted to all addressees.
4. When using the 0-73 form to disseminate information to field offices, Legal Attaches and other Government agencies simultaneously, the text, notes and administrative data must be identical for all addressees.

ALL INFORMATION

DATE 3/6/89

INSTRUCTIONS

- (1) Submit an original only of the FD-515 within 30 days of a recordable accomplishment. Submission of each statistic should not be delayed awaiting the accumulation of several statistics.
- (2) The date the FD-515 is submitted must be shown.
- (3) The field office file number and appropriate subclassification, if applicable, must be set forth.
- (4) Category A - **"PRELIMINARY JUDICIAL PROCESS"** - This indicates the number of subjects against whom judicial action has taken place. The number of subjects must be indicated with a numerical entry and not with the letter "X" or a check mark.

FOR EXAMPLE: If 4 subjects have 10 Bills of Indictment returned against them, enter 4 on line 3.

- (5) Category B - **"FINAL JUDICIAL PROCESS"** - This, again, indicates the number of subjects and the number of counts or violations for which the subject is convicted. The number of counts shown on lines 5 and 7 must equal or exceed the number of subjects indicated on lines 4 and 6, never be less. Category 4 and 5 or 6 and 7 cannot be claimed prior to sentencing.

FOR EXAMPLE: If a subject is convicted for multiple counts in a single indictment or is convicted on a number of individual indictments, the entry in either case will be one subject convicted.

- (6) Category C - **"SENTENCES"** - Indicate only the number of subjects and where a combination of sentences are imposed, enter only the most severe sentence. The number of subjects cannot exceed the number of subjects indicated in Category B, lines 4 and 6. The amount of the fine (line 5), if any, is always claimed in conjunction with either lines 1, 2, 3, or 4.

- (7) Category D - **"ARRESTS/LOCATES/SUMMONS"** - Indicate the number of subjects under designated priorities.

- (8) Category E - **"RECOVERY AND LOSS PREVENTED"** - Recoveries - When stolen or illegally possessed items with intrinsic value are recovered as a part of an FBI investigation, the value of the item should be recorded. Restitutions will be recorded in this category when ordered as part of a sentence.

Potential Economic Loss Prevented - Record items such as counterfeit securities, money orders, Cashier Checks, Travelers Checks, and pirated copyright and patented material.

A justification airtel must be submitted with the FD-515 as an enclosure when the recovery or potential economic loss prevented exceeds \$1,000,000.

- (9) Category F - **"CIVIL MATTERS"** - To record an entry in this category, it is necessary to conduct actual investigation in the matter. Both the original amount sought and the damages awarded by the court are to be recorded under amount of suit and settlement or award. Therefore, if numbers 1 or 3 are completed, it is necessary that number 2 and 4 also be completed even if by zero. The only exception would be when monies are paid by the subject in Ascertaining Financial Ability Matters wherein it is not necessary to record an entry in F3.

- (10) **"REMARKS"** - Identify the name of the subject(s) and when reporting a conviction identify the Title, Section, and Code applicable to each count convicted.

- (11) **Errors** - If a previously submitted FD-515 is determined to contain an error after verifying the statistic on the Monthly Statistical Results Report, submit an original only of the FD-515 clearly marking the top of the form in red ink with the word **"AMENDED."** Other than the title, FBIHQ file number (if known), field office file number, and date, only complete the category being corrected by a numerical entry representing the appropriate decrease or increase. If this entry represents a decrease, insert a minus "-" sign and if an increase, insert a plus "+" sign directly to the left of the numerical entries which will signify the type of correction.

USE OF FORM 0-73

1. Only incoming teletype messages which require transmission relay may be prepared for transmission using form 0-73. Use of form 0-73 is restricted to incoming teletype messages received within the last 3 days which require transmission relay; all other teletype messages must be prepared using form 0-93.
2. Additions such as notes and administrative data for a specific addressee are not allowed. If a note or administrative data is required for a particular addressee a separate 0-73 form must be prepared.
3. The message will be transmitted just as it appears. The person approving the message is solely responsible for assuring all necessary editing changes have been made.

PREPARATION OF FORM WHICH CONSISTS OF A PREPRINTED YELLOW.

1. Complete appropriate boxes: date, classification & precedence.
2. List addresses immediately following the "TO" or place a check mark in the appropriate boxes.
3. Type or PRINT the subject in the space provided.
4. Print or type originator's name, room number and telephone extension.
5. Indicate approval for transmission by initialing the "Approved By" box.

FEDERAL BUREAU OF INVESTIGATION
COMMUNICATIONS SECTION

PREPARATION OF MESSAGE TO BE TRANSMITTED

1. Xerox 1 copy of incoming teletype message. A notation shall be made on the original incoming teletype "1 copy made for relay to SACS _____, (OR LEGATS) _____, (OR GOVERNMENT AGENCIES) _____."
2. Minor editing changes shall be made on the xerox as follows: using a lead pencil ONLY draw single line through the first and last lines of the heading and connect these lines from top right to bottom left forming a "Z," figure. (DO NOT OBLITERATE THE HEADING.) Use horizontal lines to delete sentences or words. Printed changes of a word or two to the text of the message may be made; however, changes to the existing text involving more than a word or two necessitate the originator to initiate a new message using form 0-93.
3. Administrative data or notes may be typed immediately following the text and will be transmitted to all addressees.
4. When using the 0-73 form to disseminate information to field offices, Legal Attaches and other Government agencies simultaneously, the text, notes and administrative data must be identical for all addressees.

~~USE OF FORM 0-73~~

1. Only incoming teletype messages which require transmission relay may be prepared for transmission using form 0-73. Use of form 0-73 is restricted to incoming teletype messages received within the last 3 days which require transmission relay; all other teletype messages must be prepared using form 0-93.
2. Additions such as notes and administrative data for a specific addressee are not allowed. If a note or administrative data is required for a particular addressee a separate 0-73 form must be prepared.
3. The message will be transmitted just as it appears. The person approving the message is solely responsible for assuring all necessary editing changes have been made.

PREPARATION OF FORM WHICH CONSISTS OF A PREPRINTED YELLOW.

1. Complete appropriate boxes: date, classification & precedence.
2. List addresses immediately following the "TO" or place a check mark in the appropriate boxes.
3. Type or PRINT the subject in the space provided.
4. Print or type originator's name, room number and telephone extension.
5. Indicate approval for transmission by initialing the "Approved By" box.

PREPARATION OF MESSAGE TO BE TRANSMITTED

1. Xerox 1 copy of incoming teletype message. A notation shall be made on the original incoming teletype "1 copy made for relay to SACS _____, (OR LEGATS) _____, (OR GOVERNMENT AGENCIES) _____".
2. Minor editing changes shall be made on the xerox as follows: using a lead pencil ONLY draw single line through the first and last lines of the heading and connect these lines from top right to bottom left forming a "Z" figure. (DO NOT OBLITERATE THE HEADING.) Use horizontal lines to delete sentences or words. Printed changes of a word or two to the text of the message may be made; however, changes to the existing text involving more than a word or two necessitate the originator to initiate a new message using form 0-93.
3. Administrative data or notes may be typed immediately following the text and will be transmitted to all addressees.
4. When using the 0-73 form to disseminate information to field offices, Legal Attaches and other Government agencies simultaneously, the text, notes and administrative data must be identical for all addressees.

Subject: HOUSE PERMANENT SELECT COMMITTEE ON INTELLIGENCE
(HPSCI) INVESTIGATION INTO THE EDWIN WILSON AND
FRANK TERPIL MATTER

PURPOSE: To advise of HPSCI's investigation and request for assistance from the FBI.

DETAILS: By letter dated September 28, 1981 from Chairman Edward P. Boland, HPSCI to the Attorney General, with a copy to the Director, FBI, Chairman Boland advised of the Committee's investigation into the Wilson-Terpil matter and requested the cooperation of the Executive Branch. The Committee intends for the investigation to be as thorough as possible although they recognize the need to protect sensitive intelligence sources and/or ongoing investigations where prosecution is contemplated. The Committee also plans to hold public and closed hearings on this matter and, if any legislative remedies are called for, will hold separate hearings on pertinent proposals. They expect their investigation to take approximately 6-8 weeks.

On 9/29/81, [redacted] staff member, HPSCI, contacted the Congressional Affairs Unit, (CAU) with the first specific request for the Bureau's assistance. [redacted] asked to see the communications by SA [redacted] of the Fayetteville RA to Headquarters regarding certain interviews conducted on this matter.

DO NOT FILE WITHOUT COMMUNICATIONS STAMP

FBI(21-cv-5450)-5250

USE OF FORM 0-73

1. Only incoming teletype messages which require transmission relay may be prepared for transmission using form 0-73. Use of form 0-73 is restricted to incoming teletype messages received within the last 3 days which require transmission relay; all other teletype messages must be prepared using form 0-93.
2. Additions such as notes and administrative data for a specific addressee are not allowed. If a note or administrative data is required for a particular addressee a separate 0-73 form must be prepared.
3. The message will be transmitted just as it appears. The person approving the message is solely responsible for assuring all necessary editing changes have been made.

PREPARATION OF FORM WHICH CONSISTS OF A PREPRINTED YELLOW.

1. Complete appropriate boxes: date, classification & precedence.
2. List addresses immediately following the "TO" or place a check mark in the appropriate boxes.
3. Type or PRINT the subject in the space provided.
4. Print or type originator's name, room number and telephone extension.
5. Indicate approval for transmission by initialing the "Approved By" box.

PREPARATION OF MESSAGE TO BE TRANSMITTED

1. Xerox 1 copy of incoming teletype message. A notation shall be made on the original incoming teletype "1 copy made for relay to SACS _____, (OR LEGATS) _____, (OR GOVERNMENT AGENCIES) _____."
2. Minor editing changes shall be made on the xerox as follows: using a lead pencil ONLY draw single line through the first and last lines of the heading and connect these lines from top right to bottom left forming a "Z," figure. (DO NOT OBLITERATE THE HEADING.) Use horizontal lines to delete sentences or words. Printed changes of a word or two to the text of the message may be made; however, changes to the existing text involving more than a word or two necessitate the originator to initiate a new message using form 0-93.
3. Administrative data or notes may be typed immediately following the text and will be transmitted to all addressees.
4. When using the 0-73 form to disseminate information to field offices, Legal Attaches and other Government agencies simultaneously, the text, notes and administrative data must be identical for all addressees.

FEDERAL GOVERNMENT

b6 -1

Dear Mr. Attorney General:

The purpose of this letter is to notify you that the Permanent Select Committee on Intelligence has begun an investigation into the activities of Edwin Wilson and Frank Terpil and of the conduct of United States Government agencies which responded to those activities. The investigation will be both broad ranging and thorough in its approach.

The Committee is deeply concerned by the revelations of those newspaper and magazine stories which have chronicled the illegal, unethical and-abhorrent nature of the Wilson-Terpil affair with its many associated subplots. To the extent within its power, the Committee will be devoting its full resources over the next several months to uncovering all aspects of this affair and discovering how they could have developed as they did. The Committee will then hold hearings - both public and closed - to explicate its findings and seek remedies against future occurrences.

To be successful, the Committee's investigation will require the fullest cooperation of the executive branch. Accordingly, I ask that you provide whatever assistance and information is necessary to assist the Committee's staff in piecing together all the facts bearing on the investigation.

I enclose for your information a more detailed description of the scope of the investigation approved by the Committee. I also include a list of all Committee staff members involved in the investigation, their positions and Social Security numbers.

Any inquiries concerning the investigation should be referred to [redacted] Staff Director of the Committee, or [redacted] the Chief Counsel.

With every good wish, I am
66 OCT 27 1981

Sincerely yours,

Edward P. Boland

WILSON-TERPIL INVESTIGATIONOutline

The investigation should be a broad ranging inquiry into:

(1) The activities of Wilson, Terpil and others with whom they have associated to:

--Violate the Neutrality Act, the Arms Export Control Act, the Foreign Agents Registration Act, and other Federal and State criminal laws.

--Otherwise clandestinely aid Libyan and other international terrorist activities and Libyan support for international terrorism.

(2) The conduct of U.S. intelligence agencies and officials in regard to the above.

(3) The conduct of ex-employees of intelligence agencies in the same context.

524

b3 -1
b7E -1

ENCLOSURE

FOR COMMITTEE USE ONLY

FBI(21 cv 5450) 5282

(4) The performance of other government agencies and officials in investigating all of the above, including:

--The pursuit and coordination of criminal investigatory and prosecutorial efforts.

--The contributions to criminal investigatory and prosecutorial efforts by other government agencies.

The investigation should seek to arrive at a comprehensive picture of events -- their chronology, their causes and effects -- leading up to a series of public and closed hearings which would establish these events and focus on the lessons to be learned, as well as possible actions -- legislative or otherwise -- that can be taken to prevent further recurrence of such events.

It is recommended that the investigation be arranged into two initial phases. The first should be a thorough staff review, utilizing the full or part-time efforts of up to eight Committee staff [REDACTED]

b6 -4
b7C -4

[REDACTED]. It should involve the review of all public source materials (newspaper, magazine and other media reports), internal government materials and interviews of a whole range of individuals -- in government, formerly in

government, in the media or in business -- having any involvement with or information concerning the subject of the investigation. Interviews should be transcribed where appropriate and all other staff inquiries reduced to retrievable records. This phase is estimated to require from four to six weeks.

The second phase -- hearings -- should follow the first. It should seek to use the research obtained thereby to lay out (on the public record wherever possible) the activities of Wilson and Terpil and the relationship they bear to the government, particularly the intelligence community, to present and former government officials, and to other relevant issues of concern arising from the investigation. Finally, the hearings should seek to evince from this process any lessons to be learned and explore generally remedies that might be taken.

If legislative remedies seem called for, separate hearings on specific proposals would be appropriate at a later date.

The investigation, in both of its phases, would aim to be as thorough as possible recognizing the need to protect sensitive intelligence sources and/or ongoing criminal investigations where prosecution is contemplated.

For purposes of coordination in the first phase, a control group [] will monitor and coordinate inquiries assigned to other individual staff members or teams. This control group should brief, on a regular basis, the Chairman and Ranking Minority Member on the findings, progress, and directions of the staff's efforts as well as any problems that may arise.

RE: REQUEST BY DEPARTMENT OF JUSTICE
FOR ACCESS TO FBI FILES RELATING
TO OVERALL INVESTIGATION OF
EDWIN P. WILSON, FRANK E. TERPIL
AND ASSOCIATES

insure the cases are appropriately prosecuted. [redacted]
in this letter, requested the FBI provide [redacted]
with all investigative reports and LHM related to the
Wilson and Terpil investigation.

b6 -4
b7C -4

Reference Ivey to Assistant Director Monroe
memorandum sets forth details of a meeting to be held
by AAG [redacted] on 9/22/81 to be attended by DOJ personnel,
several Assistant United States Attorneys, FBI Headquarters
and FBI field office personnel and representatives of the
Bureau of Alcohol, Tobacco and Firearms.

In conversation with [redacted] Deputy
Assistant Attorney General, of 9/10/81, he advised
Section Chief Ivey that [redacted] review is in
preparation of the 9/22/81 meeting and that [redacted]
requests that she have actual access to our files for
review of pertinent information not yet available in
report of LHM format. He advised that [redacted]
has ~~top secret~~ clearance. DOJ has since advised
[redacted] is in the process of obtaining [redacted] ~~SCI/TK~~
clearance.

b6 -4
b7C -4

Accordingly, on 9/11/81 arrangements were made
for [redacted] to have access to not only LHM and
investigative reports, but to other data as well,
[excluding informant identity, ~~SCI/TK~~ and ~~ORCON~~ material] ~~(S)~~
in the Foreign Agents Registration Act investigative
file relating to Wilson and Terpil. She began this
review on the afternoon of 9/11/81. Not yet made
available to [redacted] are voluminous other
files relating to the [redacted] investigation and other
aspects of Libyan terrorism investigations that relate
to or may relate to the Wilson, Terpil investigation.
It is noted that there is considerable material in our
files not yet prepared in a LHM or investigative report
format.

b6 -2, -4
b7C -2, -4

Now that the Terrorism Section has a Task Force
to handle this overall investigation and is now staffed
with sufficient personnel to conduct thorough file
reviews, it is being recommended that review by
[redacted] be limited to LHM and investigative
reports as now exists or those that will be prepared.
Additional information as needed by [redacted]
will be provided in oral briefings.

USE OF FORM 0-73

1. Only incoming teletype messages which require transmission relay may be prepared for transmission using form 0-73. Use of form 0-73 is restricted to incoming teletype messages received within the last 3 days which require transmission relay; all other teletype messages must be prepared using form 0-93.
2. Additions such as notes and administrative data for a specific addressee are not allowed. If a note or administrative data is required for a particular addressee a separate 0-73 form must be prepared.
3. The message will be transmitted just as it appears. The person approving the message is solely responsible for assuring all necessary editing changes have been made.

PREPARATION OF FORM WHICH CONSISTS OF A PREPRINTED YELLOW.

1. Complete appropriate boxes: date, classification & precedence.
2. List addresses immediately following the "TO" or place a check mark in the appropriate boxes.
3. Type or PRINT the subject in the space provided.
4. Print or type originator's name, room number and telephone extension.
5. Indicate approval for transmission by initialing the "Approved By" box.

PREPARATION OF MESSAGE TO BE TRANSMITTED

1. Xerox 1 copy of incoming teletype message. A notation shall be made on the original incoming teletype "1 copy made for relay to SACS _____, (OR LEGATS) _____, (OR GOVERNMENT AGENCIES) _____."
2. Minor editing changes shall be made on the xerox as follows: using a lead pencil ONLY draw single line through the first and last lines of the heading and connect these lines from top right to bottom left forming a "Z," figure. (DO NOT OBLITERATE THE HEADING.) Use horizontal lines to delete sentences or words. Printed changes of a word or two to the text of the message may be made; however, changes to the existing text involving more than a word or two necessitate the originator to initiate a new message using form 0-93.
3. Administrative data or notes may be typed immediately following the text and will be transmitted to all addressees.
4. When using the 0-73 form to disseminate information to field offices, Legal Attaches and other Government agencies simultaneously, the text, notes and administrative data must be identical for all addressees.

~~USE OF FORM 0-73~~

1. Only incoming teletype messages which require transmission relay may be prepared for transmission using form 0-73. Use of form 0-73 is restricted to incoming teletype messages received within the last 3 days which require transmission relay; all other teletype messages must be prepared using form 0-93.
2. Additions such as notes and administrative data for a specific addressee are not allowed. If a note or administrative data is required for a particular addressee a separate 0-73 form must be prepared.
3. The message will be transmitted just as it appears. The person approving the message is solely responsible for assuring all necessary editing changes have been made.

PREPARATION OF FORM WHICH CONSISTS OF A PREPRINTED YELLOW.

1. Complete appropriate boxes: date, classification & precedence.
2. List addresses immediately following the "TO" or place a check mark in the appropriate boxes.
3. Type or PRINT the subject in the space provided.
4. Print or type originator's name, room number and telephone extension.
5. Indicate approval for transmission by initialing the "Approved By" box.

PREPARATION OF MESSAGE TO BE TRANSMITTED

1. Xerox 1 copy of incoming teletype message. A notation shall be made on the original incoming teletype "1 copy made for relay to SACS _____, (OR LEGATS) _____, (OR GOVERNMENT AGENCIES) _____."
2. Minor editing changes shall be made on the xerox as follows: using a lead pencil ONLY draw single line through the first and last lines of the heading and connect these lines from top right to bottom left forming a "Z" figure. (DO NOT OBLITERATE THE HEADING.) Use horizontal lines to delete sentences or words. Printed changes of a word or two to the text of the message may be made; however, changes to the existing text involving more than a word or two necessitate the originator to initiate a new message using form 0-93.
3. Administrative data or notes may be typed immediately following the text and will be transmitted to all addressees.
4. When using the 0-73 form to disseminate information to field offices, Legal Attaches and other Government agencies simultaneously, the text, notes and administrative data must be identical for all addressees.
